EDITOR'S NOTE

# One month, seen clearly

Lens is a new, shorter companion to Sunyra Magazine: a practical guide to a single month, published as the month begins.

November 2026 is a month of turning points that are easy to feel and easy to misread. The double retrograde of Mercury and Venus that began in October ends in the same week as Diwali. Mars, which has spent eight weeks in Cancer, the sign where it is weakest, crosses into Leo on the evening of 12 November and sits within two degrees of Jupiter and Ketu. And after Dev Uthani Ekadashi on 20–21 November, the wedding season begins.

We have tried to make this a guide you can use rather than a forecast you have to believe. Every date, time and position in these pages was computed with the Sunyra engine for New Delhi — the same engine that draws your free kundli — and we say where almanacs differ. When we describe what a transit tends to bring, we describe tendencies and seasons, never fixed events.

> *A chart describes weather, not fate. The point of knowing the weather is to dress well for it.*

Inside: the month at a glance, a day-by-day panchang for all thirty days, the Diwali week with its evening muhurtas, Kartik Purnima, a calm guide to what a muhurta is, two features — one on marriage, one on work and money — and a two-page spread for each of the twelve Moon signs.

**NEW: YOUR OWN NOVEMBER**

Each sign spread is written for everyone with that Moon sign. For a calendar of November read from *your* chart — every day's tone, and your three best days for love, work and money — open **sunyra.ai/lens/2026-11/my-november**. It is free and takes a minute.

With care,

# The sky turns forward

### RETROGRADE, IN ONE SENTENCE

When the Earth overtakes a slower planet, or a faster one overtakes the Earth, the planet seems to drift backwards against the stars for a few weeks. Nothing in the sky actually reverses; the tradition reads these loops as times for review rather than launch.

### NO ECLIPSES THIS MONTH

The next eclipse season begins in February 2027. November's two lunations are ordinary new and full Moons — which, for a festival month, is a quiet blessing.

# Where the planets stand

# The five moments that shape the month

### 13 Nov · Mercury direct

After three weeks of second drafts, Mercury stations at 10°48′ Libra and begins to move forward. Papers, plans and conversations that stalled since 24 October start to move; give it a few days before you sign the biggest things.

### 12 Nov · Mars into Leo

At 20:19 Mars leaves Cancer, its sign of debilitation, for Leo, a friendly fire sign. Within four days it passes Ketu (15 Nov) and Jupiter (16 Nov) at about one and a half degrees of Leo, in the nakshatra Magha.

### 14 Nov · Venus direct

Venus turns direct at 28°38′ Virgo, the sign of its debilitation, after a retrograde that began on 3 October. Love and money questions reviewed since then can now be settled — gently, because Venus stays weak in Virgo until 22 Nov.

### 16 Nov · Vrishchika Sankranti

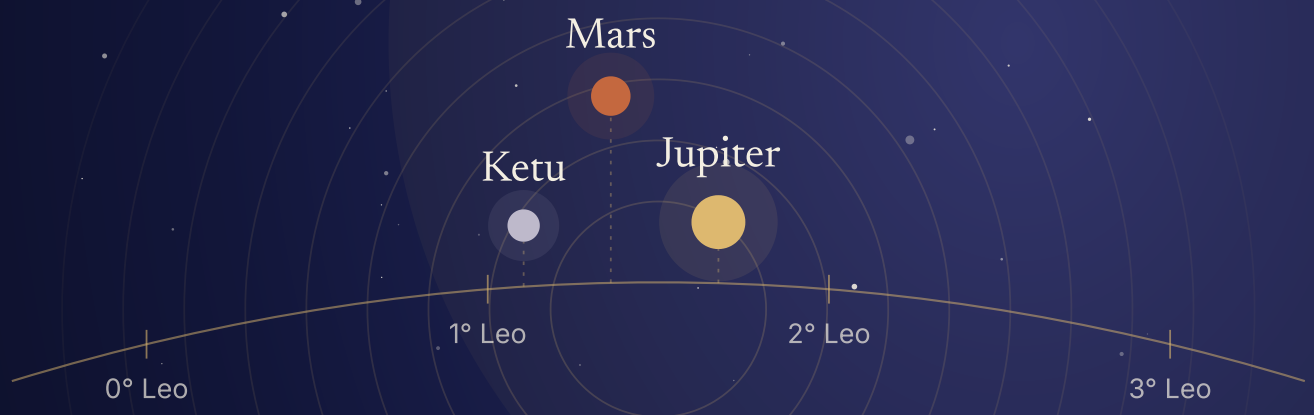

The Sun leaves Libra, where it is debilitated, for Scorpio at 19:44. In the tradition the Sun regains strength here, and the solar month of Vrishchika begins.

### 24 Nov · Kartik Purnima

The full Moon is exact at 20:24 in Taurus, in Krittika — the star that gives the month of Kartika its name. Dev Deepawali, Guru Nanak Jayanti and the Kartik snan fall on this day.

◉ 15 NOV – 16 NOV

# Three in Leo

In the middle of November, Mars, Jupiter and Ketu stand within two degrees of each other at the head of Leo, in Magha — the nakshatra of ancestors and thrones. Mars passes Ketu on 15 Nov and Jupiter on 16 Nov.

The old texts call Mars with Jupiter *Guru–Mangala yoga*: courage guided by wisdom. With Ketu beside them, it is courage that needs a purpose. Each sign spread shows where it falls for you.

6 NOV – 11 NOV

# Diwali week, computed

Five days of lamps, from Dhanteras to Bhai Dooj – each festival tied to a lunar day at a particular time of day, which is why the dates move every year.

| | | |
|---|---|---|
| Fri 6 Nov | **Dhanteras** · Dhanvantari Jayanti | Krishna Trayodashi holds the evening (from 10:31) |
| Sat 7 Nov | Choti Diwali (evening) | Chaturdashi begins 10:48 |
| Sun 8 Nov | **Narak Chaturdashi** morning · **Lakshmi Puja** evening | Chaturdashi at dawn; Amavasya from 11:28 holds the evening |
| Mon 9 Nov | Amavasya snan and daan | New Moon exact 12:32; Amavasya ends 12:32 |
| Tue 10 Nov | **Govardhan Puja** · Annakut | Shukla Pratipada at sunrise |

DIWALI WEEK

# The evening of Lakshmi Puja

Lakshmi Puja is on Sun 8 Nov. Amavasya begins at 11:28 that morning and runs until 12:32 on 9 Nov, so it holds the whole evening of the 8th – and the evening of the 9th is already Pratipada.

## Pradosh and the fixed signs

Household Lakshmi Puja is done after sunset, in *pradosh*. Many families also wait for a *sthira* (fixed) sign to rise in the east, because the tradition holds that what is begun under a fixed sign stays. Two fixed signs rise on Diwali night at New Delhi:

| WINDOW (IST) | RISING SIGN | USED FOR |
|---|---|---|
| **17:55–19:50** | **Vrishabha** (Taurus) | Household Lakshmi Puja, the most common choice |
| **00:25–02:42** night of 8/9 Nov | **Simha** (Leo) | Nishita puja, kept by some families and temples |

Sunset at New Delhi is at 17:31. The Vrishabha window falls inside the early evening, which is why most almanacs print a Lakshmi Puja muhurta of roughly 17:55 to 19:50 for Delhi. In other cities the window shifts by up to an hour: your local sunrise and latitude decide it.

## Narak Chaturdashi and Choti Diwali

Chaturdashi runs from 10:48 on 7 Nov to 11:28 on 8 Nov. The oil bath of Narak Chaturdashi is taken before sunrise on a day that dawns in Chaturdashi — Sun 8 Nov, the same day as Lakshmi Puja this year. Many families light the lamps of Choti Diwali on the evening of the 7th, once Chaturdashi has begun.

## Dhanteras

Krishna Trayodashi begins at 10:31 on 6 Nov and holds that evening, so Dhanteras, Dhanvantari Jayanti and the Yama deepam fall on Fri 6 Nov (sunset 17:32). Buying a small piece of metal is the custom; buying beyond your means is not.

### A CALM NOTE ON THE SKY

Venus and Mercury are still retrograde in Diwali week and Venus has just slipped into Virgo. For Diwali that is no reason to worry: it makes this a festival for gratitude, cleaning, giving and settling accounts — exactly what the five days are about.

## Govardhan Puja and Bhai Dooj

Amavasya ends at 12:32 on 9 Nov; Tue 10 Nov dawns in Shukla Pratipada, the first day of the bright half of Kartika. That is Govardhan Puja and Annakut — the mountain of food offered in memory of Krishna lifting the hill — and, in Gujarat, the new year (Bestu Varas).

Dwitiya begins at 14:00 on 10 November and runs until 15:53 on the 11th, so it holds the whole afternoon of Wed 11 Nov — the time the rule asks for. Bhai Dooj is on the 11th; a few families who follow the earliest afternoon Dwitiya keep it on the 10th.

## The Diwali days at New Delhi

| DAY | SUNRISE | SUNSET | ABHIJIT | RAHU KAAL |
|---|---|---|---|---|
| Fri 6 Nov | 06:36 | 17:32 | 11:42–12:26 | 10:42–12:04 |
| Sat 7 Nov | 06:37 | 17:31 | 11:42–12:26 | 09:21–10:42 |
| Sun 8 Nov | 06:38 | 17:31 | 11:42–12:26 | 16:09–17:31 |
| Mon 9 Nov | 06:38 | 17:30 | 11:43–12:26 | 08:00–09:21 |
| Tue 10 Nov | 06:39 | 17:30 | 11:43–12:26 | 14:47–16:08 |
| Wed 11 Nov | 06:40 | 17:29 | 11:43–12:26 | 12:05–13:26 |

Abhijit is the eighth of the fifteen daytime muhurtas, centred on local noon; Rahu kaal is the eighth part of the day traditionally avoided for beginnings. Both are computed for New Delhi.

## Five small, practical things

- Clean and declutter in the days before Dhanteras: the tradition says Lakshmi enters a house that is ready.
- Settle what you owe — money, thanks or apology — before the new Moon. It is what the festival of new account books is for.
- Light one lamp facing south on Dhanteras evening for the Yama deepam, in memory of those who have gone before.
- Keep gifts within your means; Venus in its weakest sign is a gentle reminder.
- On Bhai Dooj, call the brother or sister you have not spoken to in a while.

EXPLAINER

# What is a muhurta?

A muhurta is a well-chosen moment to begin something. It is a tool for starting well — never a reason for fear.

The word has two meanings. Strictly, a muhurta is a unit of time: 1/30 of a day, about 48 minutes, so that the day from sunrise to sunset holds fifteen of them and the night another fifteen. More loosely, it means an auspicious window chosen for a beginning — a wedding, a griha pravesh, a new business, a puja.

Choosing one is called *muhurta shastra*. The classical texts, above all the Muhurta Chintamani, look at the five limbs of the day — tithi, vara, nakshatra, yoga and karana — and then at the sign rising in the east at the moment itself. Different undertakings have different rules: a journey favours "movable" nakshatras like Swati, a house-warming favours "fixed" ones like Rohini, and so on.

## What a muhurta can and cannot do

A good muhurta is like starting a journey in good weather. It does not make a weak plan strong, a wrong partner right, or a bad investment safe. And a less-than-perfect one does not doom anything: countless happy marriages and successful businesses began on ordinary days.

### THE DAILY WINDOWS YOU WILL MEET

- **Abhijit**: the eighth daytime muhurta, around local noon; widely used when no special muhurta is available (classically avoided on Wednesdays).
- **Brahma muhurta**: the hour and a half before sunrise; for study, prayer and meditation.
- **Rahu kaal**: one eighth of the daytime, different for each weekday; traditionally avoided for beginnings.
- **Choghadiya**: eight parts of the day and night, each named good, neutral or bad; popular in western India for travel and business.

> *Choose the best time you reasonably can — then stop worrying about it.*

FESTIVALS

# Chhath, Dev Uthani and Kartik Purnima

After Diwali the bright fortnight of Kartika brings three of the year's most loved observances: the Sun worship of Chhath, the god's awakening on Prabodhini Ekadashi, and the lamps of Kartik Purnima.

## Chhath Puja

Chhath honours Surya and Chhathi Maiya on Kartika Shukla Shashthi. Shashthi runs from 23:24 on 14 Nov to 02:01 on 16 Nov, so it holds the sunset of Sun 15 Nov.

## Prabodhini Ekadashi – Dev Uthani

On the Ekadashi of Kartika's bright half, Vishnu is said to wake from the four months' sleep that began in Ashadha, and Chaturmas ends. This year Ekadashi runs from 07:16 on 20 Nov to 06:32 on 21 Nov — it touches no sunrise at all, a *kshaya* Ekadashi. Almanacs therefore differ: some keep the fast on Friday 20 November, when Ekadashi is running; others on Saturday 21 November, because the 20th dawns in Dashami. Follow the almanac your family uses.

Tulsi Vivah, the marriage of the tulsi plant to Shaligram (Vishnu), is kept on Dwadashi, Sat 21 Nov, in most homes, and on the Ekadashi itself in others. With it the season of weddings begins.

TUE 24 NOV · FULL MOON 20:24

# Kartik Purnima

Purnima runs from 23:43 on 23 Nov to 20:23 on 24 Nov: it holds the sunrise and the evening of the 24th. The full Moon is exact at 20:24 in Taurus, in Krittika.

**Kartik snan.** A dawn bath in a river or at home ends the month-long Kartik vrat for those who keep it. Deepdaan — floating a lamp on water — follows in the evening.

**Dev Deepawali.** In Varanasi the ghats are lit with lakhs of lamps on the evening of Purnima: the Diwali of the gods, celebrating Shiva's victory over Tripurasura.

**Guru Nanak Jayanti.** The birth of Guru Nanak Dev is traditionally celebrated on Kartik Purnima, with prabhat pheris in the days before and langar on the day.

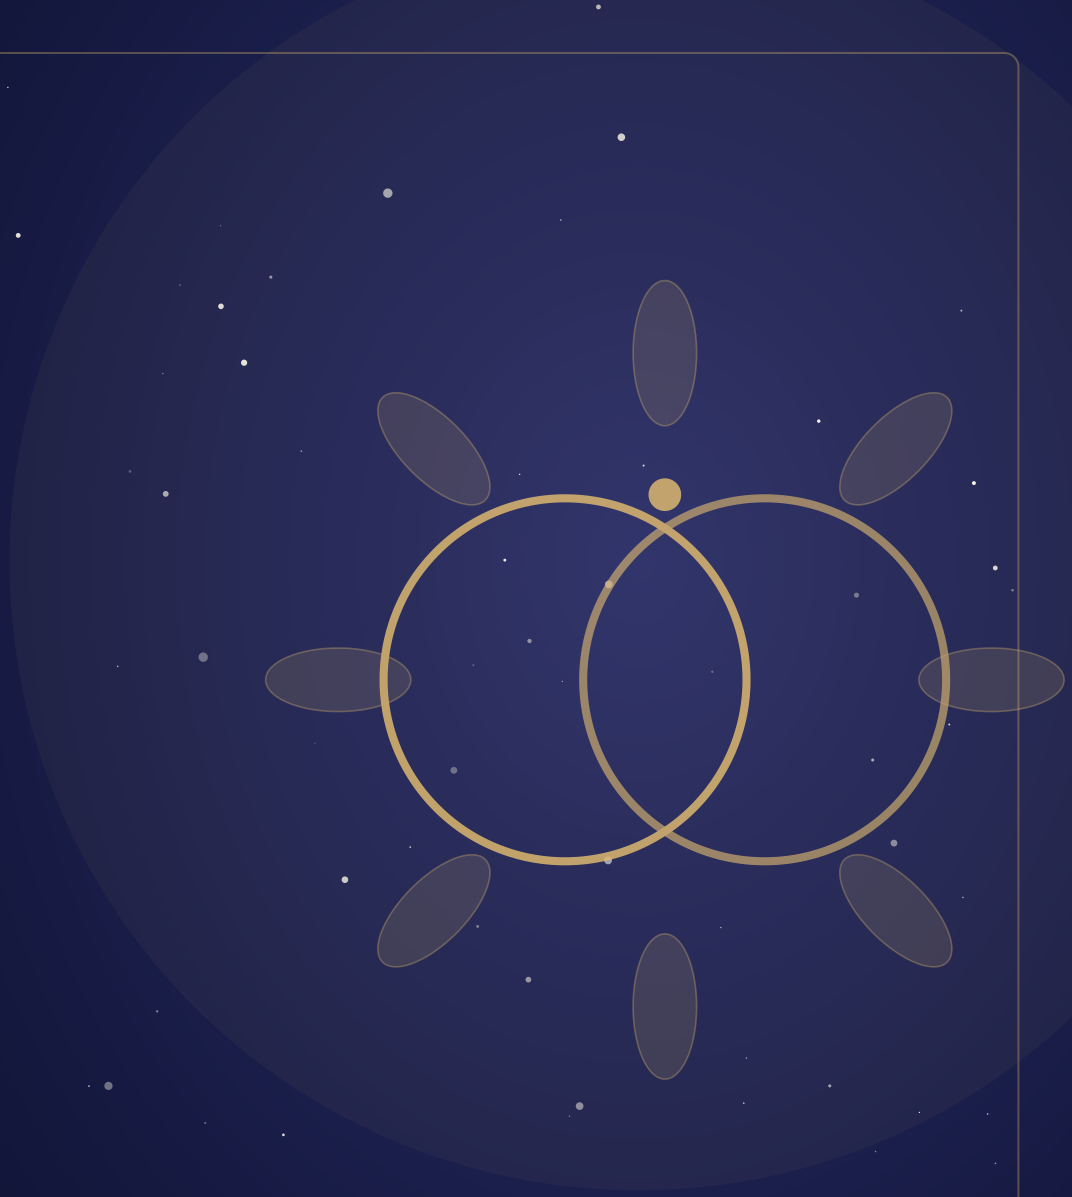

**Why Krittika matters.** Lunar months are named after the nakshatra in which their full Moon falls. Kartika is the month of Krittika, the Pleiades — and this year the Moon is in Krittika at the very moment it is full.

AFTER PURNIMA

The month of Margashirsha begins in the purnimanta reckoning used in North India. The Sun enters Sagittarius on 16 Dec, starting Kharmas, when many families pause weddings until mid-January.

FEATURE · LOVE AND MARRIAGE

# Wedding season and your chart

From Dev Uthani to Kharmas, India marries. What should you actually look at in a chart — and what can you safely stop worrying about?

## Why the season starts now

Weddings traditionally pause during Chaturmas, the four months when Vishnu sleeps, and resume after Prabodhini Ekadashi (20 Nov–21 Nov this year). They pause again during Kharmas, when the Sun is in Sagittarius — from 16 Dec — so the last ten days of November and the first half of December are the season's first busy stretch.

This year the sky helps. Venus, the planet of marriage, turns direct on 14 Nov and returns to its own sign, Libra, on 22 Nov. Through the second half of the month both Venus and Jupiter are well away from the Sun (Venus at least 30°, Jupiter at least 87°), so neither is combust — one of the conditions muhurta texts check before any wedding date.

## What to look at in your own chart

- **The 7th house and its lord** — the partner and the marriage. Where the lord sits and what aspects it says more than any single score.
- **Venus** (and Jupiter for a woman's chart, in the classical reading) — the capacity for affection and the significator of the spouse.
- **The Navamsa (D9)** — the chart astrologers read to confirm what the birth chart promises for marriage.
- **The running dasha** — marriage tends to come when the dasha lord is connected to the 7th house, its lord, Venus or the Navamsa's 7th.
- **Jupiter's transit** — Jupiter over the 7th from the Moon or lagna, or aspecting it, is a classic window for commitment.

## What you can stop worrying about

**One low Guna Milan score.** The 36-point score reads only the two Moons. Exceptions (parihara) cancel many doshas, and serious matching also reads the 7th houses, Venus, the Navamsa and Manglik status of both people.

**"Manglik" as a verdict.** Mars in the Manglik houses is very common — by the usual rules a large share of all charts qualify — and the texts list many cancellations. It describes temperament and energy, which two people can understand and plan for.

**Venus's retrograde months.** They were for talking and reviewing, not a curse. A relationship that came through October honestly is stronger for it.

> *Two charts do not decide a marriage. Two people do.*

THIS MONTH, FOR YOUR MOON SIGN

Jupiter in Leo is in the 7th house for Aquarius Moons, and in the 5th — the house of romance — for Aries Moons: classically the two strongest positions for love this month. Your sign spread has the details.

# How a wedding muhurta is chosen

Muhurta Chintamani's chapter on marriage (vivaha prakarana) works through the day in layers. The first layers are the same for everyone; the last ones are personal to the couple and the place.

1. **The season.** Outside Chaturmas and Kharmas; Jupiter and Venus not combust.
2. **The Moon's nakshatra.** Eleven are classically favoured: Rohini, Mrigashira, Magha, Uttara Phalguni, Hasta, Swati, Anuradha, Mula, Uttara Ashadha, Uttara Bhadrapada and Revati.
3. **The tithi.** Rikta tithis (Chaturthi, Navami, Chaturdashi) and Amavasya are avoided.
4. **The couple.** The day's Moon should be favourable from both partners' Moon signs (chandra bala) and birth stars (tara bala).
5. **The lagna.** Finally, a clean rising sign at the place, at the time of the pheras — the step that needs an astrologer and the exact location.

## The panchang facts, 21–30 November

| DAY | TITHI AT SUNRISE | NAKSHATRA (BOLD: IN THE CLASSICAL ELEVEN) | VENUS FROM SUN |
|---|---|---|---|
| Sat 21 Nov | Shukla Dwadashi | **Uttara Bhadrapada** till 06:50, then **Revati** | 35° |
| Sun 22 Nov | Shukla Trayodashi | Ashwini till 04:15, 23 Nov, then Bharani | 36° |
| Mon 23 Nov | Shukla Chaturdashi (rikta) | Bharani till 02:02, 24 Nov, then Krittika | 36° |
| Tue 24 Nov | Shukla Purnima | Krittika till 23:25, then **Rohini** | 37° |
| Wed 25 Nov | Krishna Pratipada | **Rohini** till 20:36, then **Mrigashira** | 38° |
| Thu 26 Nov | Krishna Dwitiya | **Mrigashira** till 17:47, then Ardra | 38° |
| Fri 27 Nov | Krishna Tritiya | Ardra till 15:08, then Punarvasu | 39° |
| Sat 28 Nov | Krishna Panchami | Punarvasu till 12:50, then Pushya | 39° |
| Sun 29 Nov | Krishna Shashthi | Pushya till 10:59, then Ashlesha | 40° |
| Mon 30 Nov | Krishna Saptami | Ashlesha till 09:42, then **Magha** | 40° |

**This is not a list of wedding muhurtas.** It shows only the first, public layers, computed for New Delhi. Sunyra does not compute vivaha muhurtas, because the deciding steps depend on both partners' charts and the lagna at the venue. Your family priest or astrologer will fix the date and the time.

READING TWO CHARTS TOGETHER

The Marriage Report reads two birth charts together — guna milan in full, each chart laid over the other, both Navamsas and ten years together, year by year. It is a reading for understanding each other, not a verdict.

♈ MESHA · MOON SIGN · NOVEMBER 2026

# Aries

For Aries Moons, November belongs to the heart. Jupiter is in your 5th all month, Mars — your own ruler — climbs out of debilitation to join it on 12 November, and the planets of words and love start moving forward again in your 7th.

## Love

Venus, still retrograde, leaves your 7th for your 6th on 6 November, turns direct there on 14 November and returns to your 7th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours kindness in daily routines and small acts of care, at a gentle pace; after that, partnership and marriage talk come more easily.

Jupiter in your 5th all month: one of the best transits for love and for having children. Few months are better for love questions, so ask the real ones.

With Mars joining Jupiter from 12 November, feelings run warm — say what you want plainly and kindly.

## Work and money

Mercury turns direct in your 7th on 13 November, so contracts and talks with partners and clients start moving again. From mid-month, sign what you have already reread.

Mars moves into your 5th on 12 November: passion, competitive play and bold creative work — and a reminder to keep speculation small.

The Sun moves into your 8th on 16 November: a quieter time for energy; rest and check paperwork.

**Money.** Jupiter in your 5th: speculation is tempting; study and creative work pay. Saturn in your 12th: trim expenses; foreign work possible. Rahu in your 11th: one of Rahu's best positions for income.

## Health and energy

Until 12 November Mars is debilitated in your 4th (home, mother and inner peace), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 5th.

Saturn in your 12th is the first phase of Sade Sati: sleep, simple food and a daily walk are the best remedies, and they are free.

Ketu in your 5th turns the mind toward study and spiritual practice. Fire Moons burn bright in a Mars month: cool food, enough water and an early night protect your mood.

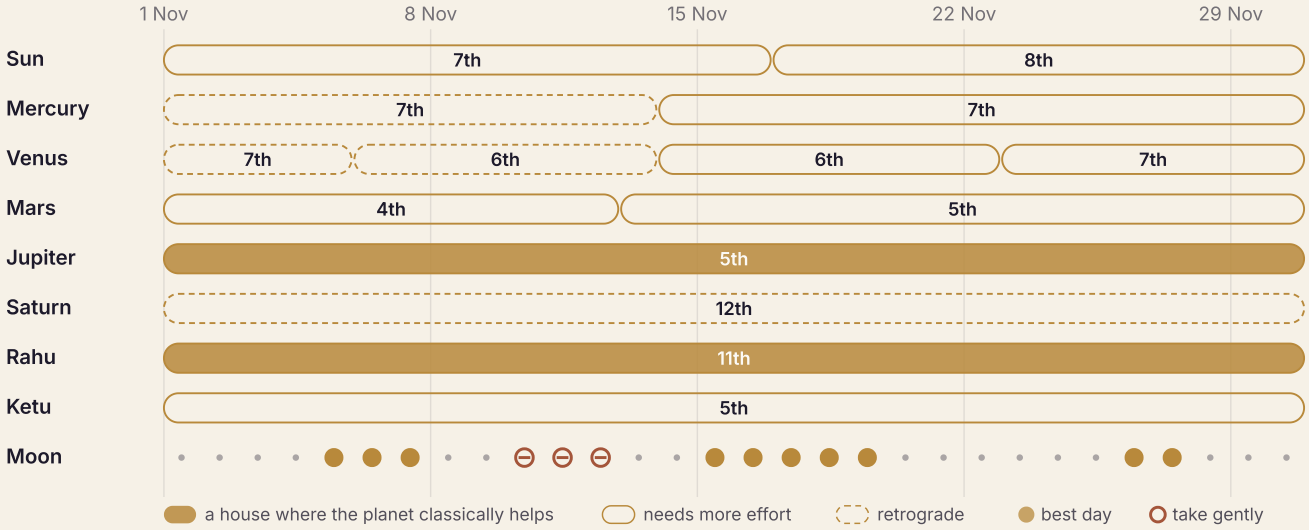

### DIWALI FOR YOU

The new Moon of 9 Nov falls in your 7th, the house of partner, marriage and agreements. Light the first lamp for a fresh start there — and on Kartik Purnima (24 Nov) the full Moon lights your 2nd: money, family and speech.

### THREE MOVES FOR NOVEMBER

- **Begin** on a best day: 5–7 Nov.
- **Talk** about love on 3–4 Nov.
- **Rest** on 10–12 Nov, when the Moon crosses your 8th.

VRISHABHA · MOON SIGN · NOVEMBER 2026

# ♉ Taurus

Taurus Moons spend November between home and work. Jupiter, Mars and Ketu gather in your 4th, Venus — your ruler — turns direct on 14 November, and Saturn keeps paying steady dividends from your 11th.

## Love

Venus, still retrograde, leaves your 6th for your 5th on 6 November, turns direct there on 14 November and returns to your 6th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours romance, play and creative pleasure, at a gentle pace; after that, kindness in daily routines and small acts of care come more easily.

Jupiter in your 4th all month: comfort at home matters more than romance.

## Work and money

Mercury turns direct in your 6th on 13 November, so routine work, schedules and health appointments start moving again. From mid-month, sign what you have already reread.

Mars moves into your 4th on 12 November: home repairs, property plans and some family heat. Keep tempers cool at the dinner table.

The Sun moves into your 7th on 16 November: partners and public dealings need tact.

**Money.** Jupiter in your 4th: property and vehicle plans; avoid overextending. Saturn in your 11th: income grows steadily. Rahu in your 10th: strong for career growth, especially in technology or abroad.

## Health and energy

Until 12 November Mars is debilitated in your 3rd (effort, messages and siblings), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 4th.

Saturn in your 11th: one of Saturn's most rewarding transits: patient gains.

Ketu in your 4th can make home feel unsettled; small daily rituals help. Earth Moons do best with routine: a daily walk and regular meals will keep the festival weeks from wearing you down.

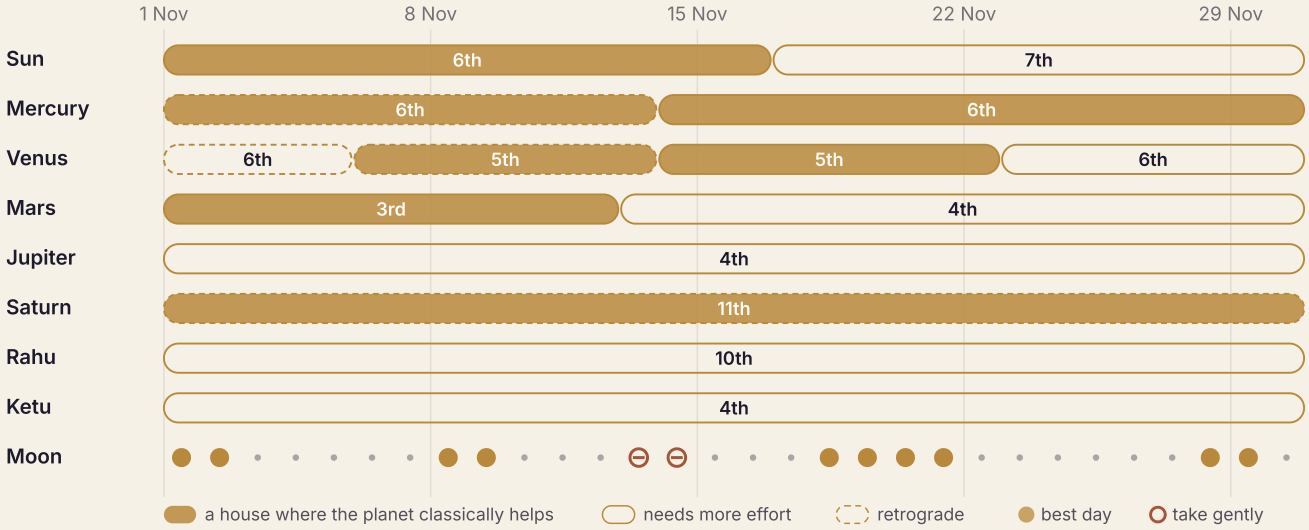

### DIWALI FOR YOU

The new Moon of 9 Nov falls in your 6th, the house of work routines, health habits and competition. Light the first lamp for a fresh start there — and on Kartik Purnima (24 Nov) the full Moon lights your 1st: self, body and mood.

MITHUNA · MOON SIGN · NOVEMBER 2026

# ♊ Gemini

For Gemini Moons this is a month for initiative. Mars, Jupiter and Ketu meet in your 3rd, the house of effort and courage, and Mercury, your ruler, turns direct in your 5th on 13 November.

## Love

Venus, still retrograde, leaves your 5th for your 4th on 6 November, turns direct there on 14 November and returns to your 5th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours comfort at home and peace with family, at a gentle pace; after that, romance, play and creative pleasure come more easily.

Jupiter in your 3rd all month: make the first move yourself.

## Work and money

Mercury turns direct in your 5th on 13 November, so studies, exams and creative drafts start moving again. From mid-month, sign what you have already reread.

Mars moves into your 3rd on 12 November, one of its best houses from the Moon: courage, initiative and the drive to finish hard tasks.

The Sun moves into your 6th on 16 November: a strong place for beating competition and fixing health habits.

**Money.** Jupiter in your 3rd: short courses, sales and writing pay off slowly. Saturn in your 10th: take responsibility you can carry; avoid shortcuts. Rahu in your 9th: foreign study or travel.

## Health and energy

Until 12 November Mars is debilitated in your 2nd (money, family and speech), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 3rd.

Saturn in your 10th: heavy work and the chance of lasting standing.

Ketu in your 3rd gives a quiet, unflashy courage. Air Moons feel scattered when busy: keep screens out of the bedroom and give yourself one unhurried morning a week.

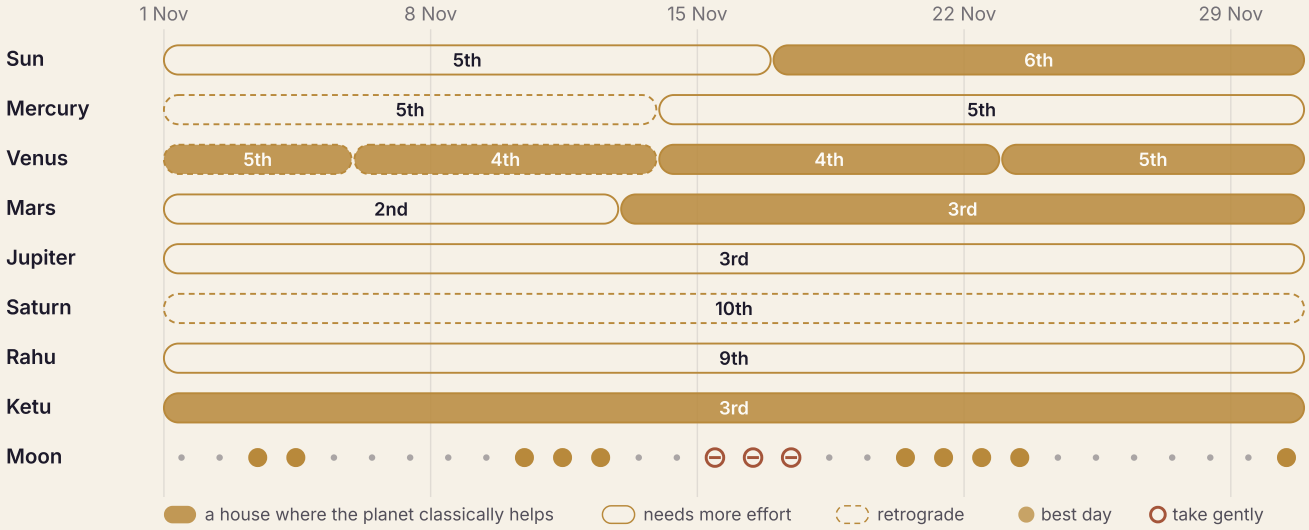

### DIWALI FOR YOU

The new Moon of 9 Nov falls in your 5th, the house of romance, children and creative work. Light the first lamp for a fresh start there — and on Kartik Purnima (24 Nov) the full Moon lights your 12th: expenses, sleep, distance and retreat.

KARKA · MOON SIGN · NOVEMBER 2026

# Cancer

Cancer Moons feel the month's biggest relief. Mars leaves your sign, where it has been debilitated since September, on 12 November, and joins Jupiter in your 2nd, the house of savings and family.

## Love

Venus, still retrograde, leaves your 4th for your 3rd on 6 November, turns direct there on 14 November and returns to your 4th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours affectionate messages and pleasant short trips, at a gentle pace; after that, comfort at home and peace with family come more easily.

Jupiter in your 2nd all month: family approves; a good time for engagements.

## Work and money

Mercury turns direct in your 4th on 13 November, so property papers and home matters start moving again. From mid-month, sign what you have already reread.

Mars moves into your 2nd on 12 November: sharper words and bolder money decisions. Speak firmly but kindly at home, and spend only on what you planned.

The Sun moves into your 5th on 16 November: children, study and creative pride come forward.

**Money.** Jupiter in your 2nd: income and savings grow; good for buying gold or land. Saturn in your 9th: dealings with institutions are slow. Rahu in your 8th: avoid shortcuts with taxes and loans.

## Health and energy

Until 12 November Mars is debilitated in your 1st (self, body and mood), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 2nd.

Saturn in your 9th: beliefs and plans tested against experience.

Ketu in your 2nd asks for simple speech and simple food. Water Moons absorb the mood of the house: warm, simple meals and a little quiet after the Diwali crowds will help.

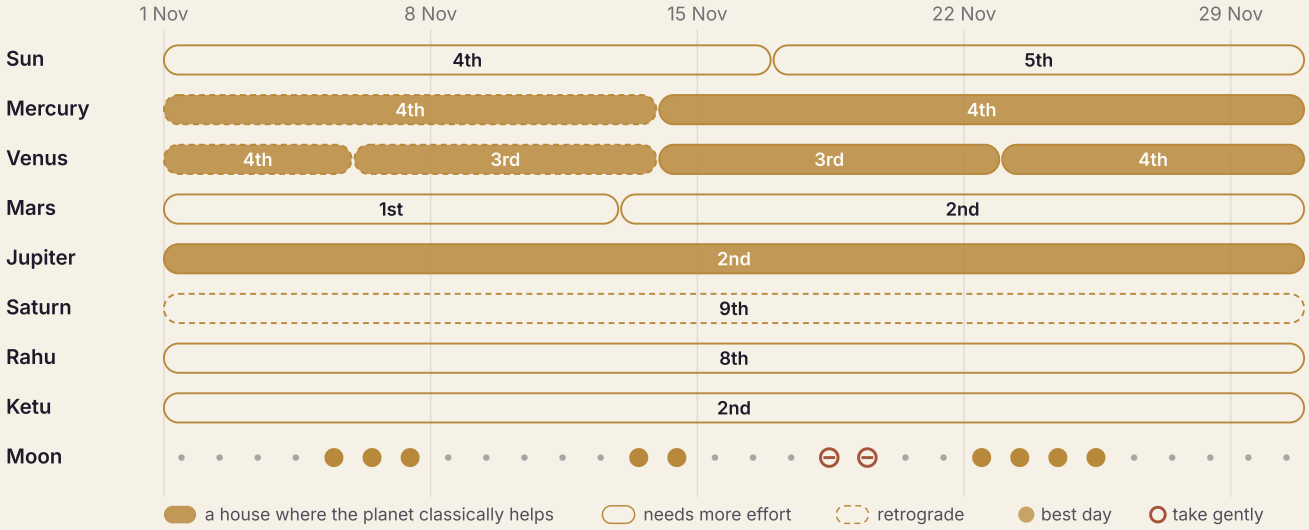

### DIWALI FOR YOU

SIMHA · MOON SIGN · NOVEMBER 2026

# Leo

For Leo Moons the month is crowded and bright. Jupiter is already in your sign, Mars arrives on 12 November and Ketu sits there too: a lot of fire in the 1st house, best spent on purpose rather than on temper.

## Love

Venus, still retrograde, leaves your 3rd for your 2nd on 6 November, turns direct there on 14 November and returns to your 3rd on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours family warmth, good food and careful spending on beautiful things, at a gentle pace; after that, affectionate messages and pleasant short trips come more easily.

Jupiter in your 1st all month: you are more attractive and generous; keep promises realistic.

With Mars joining Jupiter from 12 November, feelings run warm — say what you want plainly and kindly.

## Work and money

Mercury turns direct in your 3rd on 13 November, so messages, paperwork and short trips start moving again. From mid-month, sign what you have already reread.

Mars enters your own sign on 12 November: energy and confidence rise, and so can impatience. Exercise daily and pick one goal to push.

The Sun moves into your 4th on 16 November: home and parents ask for your time.

**Money.** Jupiter in your 1st: good for new roles; watch weight and overspending. Saturn in your 8th: avoid risky loans; insure what matters. Rahu in your 7th: new partnerships need contracts.

## Health and energy

Until 12 November Mars is debilitated in your 12th (expenses, sleep, distance and retreat), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 1st.

Saturn in your 8th (ashtama Shani) asks for steady health habits and no shortcuts with debts or medicines.

Ketu in your sign keeps you a little detached from your own image. Fire Moons burn bright in a Mars month: cool food, enough water and an early night protect your mood.

KANYA · MOON SIGN · NOVEMBER 2026

# ♍ Virgo

Virgo Moons are asked to slow down and look inward. Three planets gather in your 12th, Venus spends two weeks in your own sign, and Mercury, your ruler, turns direct in your 2nd — a good sign for money conversations.

## Love

Venus, still retrograde, leaves your 2nd for your 1st on 6 November, turns direct there on 14 November and returns to your 2nd on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours charm, self-care and the courage to say what you want, at a gentle pace; after that, family warmth, good food and careful spending on beautiful things come more easily.

Jupiter in your 12th all month: quiet intimacy; forgive old hurts.

Mars joining Jupiter there from 12 November can stir old feelings; talk them through rather than act on them.

## Work and money

Mercury turns direct in your 2nd on 13 November, so invoices, savings and family conversations start moving again. From mid-month, sign what you have already reread.

Mars moves into your 12th on 12 November: energy can run low or scatter. Rest well and put effort into quiet, behind-the-scenes work.

The Sun moves into your 3rd on 16 November: courage and initiative grow — good for applications.

**Money.** Jupiter in your 12th: spending and foreign links rise; give wisely. Saturn in your 7th: partnerships need clear terms. Rahu in your 6th: excellent for competition and recovering dues.

## Health and energy

Until 12 November Mars is debilitated in your 11th (income, friends and wishes), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 12th.

Saturn in your 7th: relationships and agreements under steady review.

Ketu in your 12th deepens meditation and sleep. Earth Moons do best with routine: a daily walk and regular meals will keep the festival weeks from wearing you down.

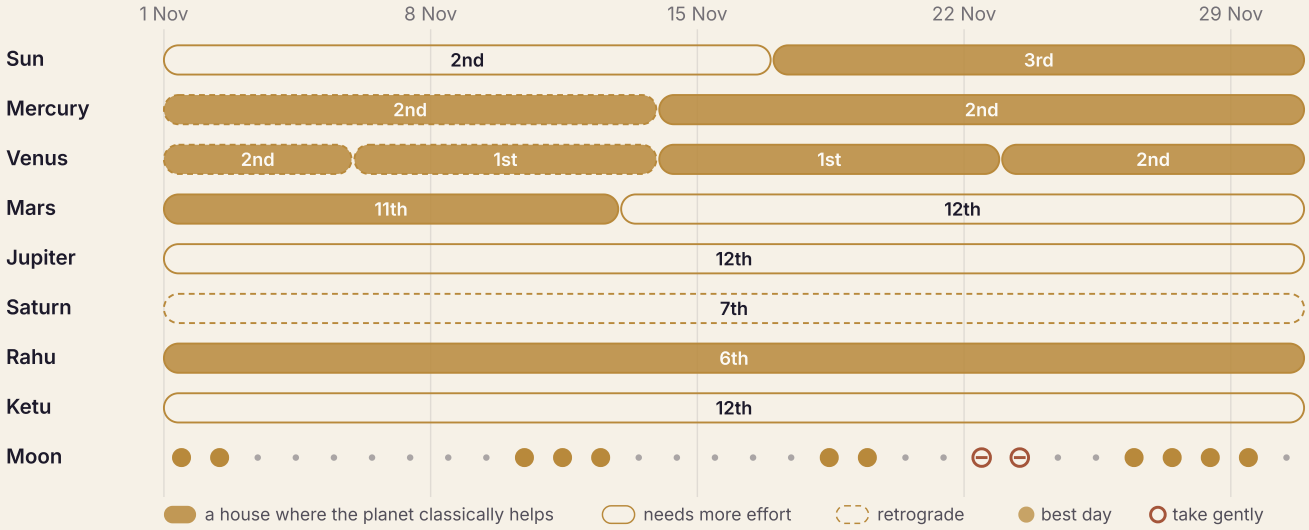

### DIWALI FOR YOU

The new Moon of 9 Nov falls in your 2nd, the house of money, family and speech. Light the first lamp for a fresh start there — and on Kartik Purnima (24 Nov) the full Moon lights your 9th: luck, teachers, faith and long journeys.

TULA · MOON SIGN · NOVEMBER 2026

# ♎ Libra

For Libra Moons, November is generous. Jupiter — and from 12 November Mars — stand in your 11th, the house of gains, while the Sun, Mercury and, from 22 November, Venus, your ruler, move through your own sign.

## Love

Venus, still retrograde, leaves your 1st for your 12th on 6 November, turns direct there on 14 November and returns to your 1st on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours private tenderness, rest and spending on pleasures, at a gentle pace; after that, charm, self-care and the courage to say what you want come more easily.

Jupiter in your 11th all month: friends introduce, celebrations happen.

## Work and money

Mercury turns direct in your 1st on 13 November, so your own plans and decisions start moving again. From mid-month, sign what you have already reread.

Mars moves into your 11th on 12 November, one of its best houses: income, networks and goals move when you push.

The Sun moves into your 2nd on 16 November: attention turns to earning and family duty.

**Money.** Jupiter in your 11th: one of the best transits for income. Saturn in your 6th: clear debts, beat competition, build health habits. Rahu in your 5th: avoid gambling and get-rich-quick schemes.

## Health and energy

Until 12 November Mars is debilitated in your 10th (career and public standing), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 11th.

Saturn in your 6th: one of Saturn's best positions: you can outwork problems.

Ketu in your 11th thins your circle to the friends who matter. Air Moons feel scattered when busy: keep screens out of the bedroom and give yourself one unhurried morning a week.

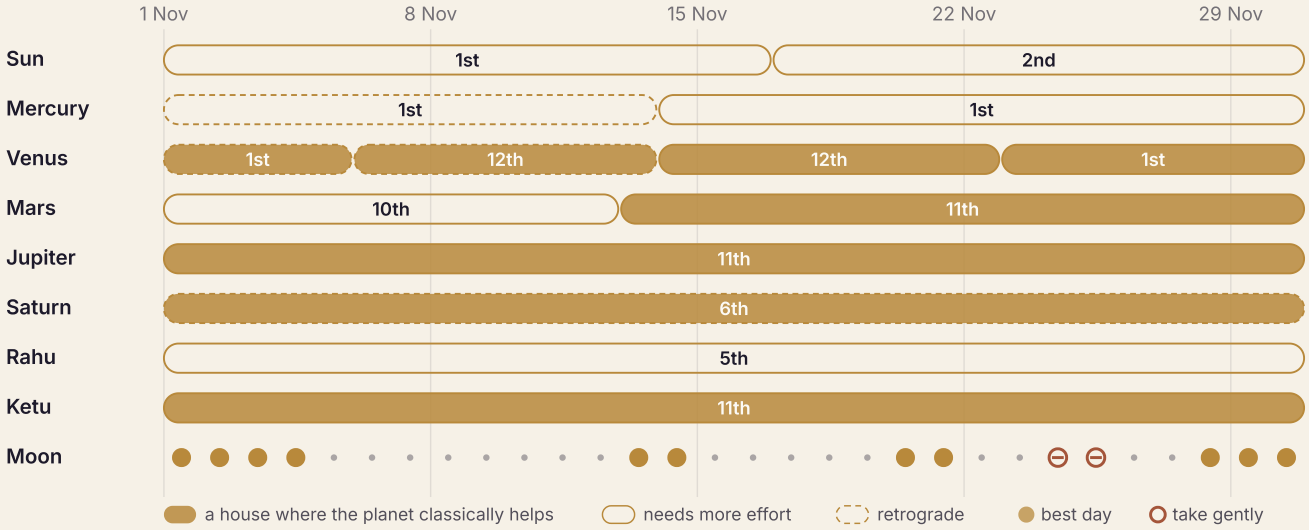

### DIWALI FOR YOU

The new Moon of 9 Nov falls in your 1st, the house of self, body and mood. Light the first lamp for a fresh start there — and on Kartik Purnima (24 Nov) the full Moon lights your 8th: shared money, in-laws and deep change.

VRISHCHIKA · MOON SIGN · NOVEMBER 2026

# ♏ Scorpio

Scorpio Moons see work take centre stage. Mars, your ruler, leaves its debilitation and joins Jupiter in your 10th on 12 November, and the Sun enters your sign on 16 November.

## Love

Venus, still retrograde, leaves your 12th for your 11th on 6 November, turns direct there on 14 November and returns to your 12th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours friends, celebrations and gains through others, at a gentle pace; after that, private tenderness, rest and spending on pleasures come more easily.

Jupiter in your 10th all month: balance ambition with time together.

## Work and money

Mercury turns direct in your 12th on 13 November, so foreign matters and quiet catching-up start moving again. From mid-month, sign what you have already reread.

Mars moves into your 10th on 12 November: ambition and visible effort at work. Lead from the front without bulldozing anyone.

The Sun moves into your 1st on 16 November: visibility and vitality rise; avoid ego clashes.

**Money.** Jupiter in your 10th: promotions are possible; stay humble. Saturn in your 5th: study rewards long practice. Rahu in your 4th: property dealings need checks.

## Health and energy

Saturn in your 5th: patience with children, study and romance.

Ketu in your 10th can make work feel hollow; look for meaning, not titles. Water Moons absorb the mood of the house: warm, simple meals and a little quiet after the Diwali crowds will help.

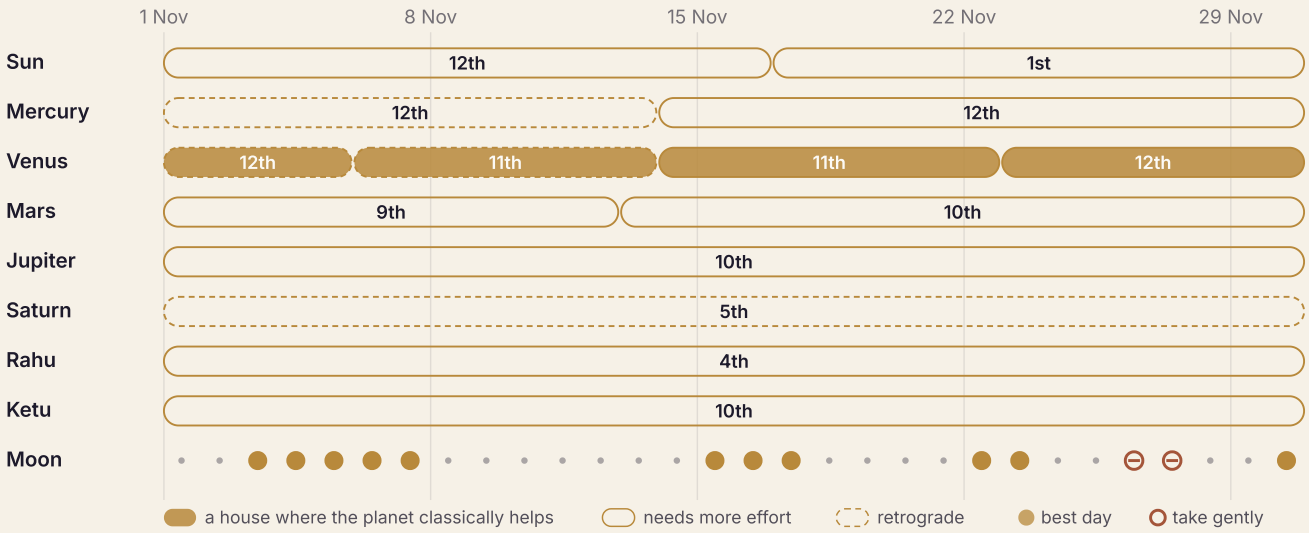

### DIWALI FOR YOU

The new Moon of 9 Nov falls in your 12th, the house of expenses, sleep, distance and retreat. Light the first lamp for a fresh start there — and on Kartik Purnima (24 Nov) the full Moon lights your 7th: partner, marriage and agreements.

DHANU · MOON SIGN · NOVEMBER 2026

# Sagittarius

For Sagittarius Moons, luck and learning are lit. Jupiter, your ruler, stands in your 9th and Mars joins it there on 12 November, while Mercury and the Sun keep your 11th, the house of income, busy.

## Love

Venus, still retrograde, leaves your 11th for your 10th on 6 November, turns direct there on 14 November and returns to your 11th on 22 November. Jupiter in your 9th all month: shared ideals bring couples closer.

## Work and money

Mercury turns direct in your 11th on 13 November, so networks, clients and group plans start moving again. From mid-month, sign what you have already reread.

Mars moves into your 9th on 12 November: strong views on beliefs, teachers and travel. Debate with respect, and plan journeys well.

The Sun moves into your 12th on 16 November: expenses, travel and a need for rest.

Ketu in your 9th questions inherited beliefs. Fire Moons burn bright in a Mars month: cool food, enough water and an early night protect your mood.

MAKARA · MOON SIGN · NOVEMBER 2026

# ♑ Capricorn

Capricorn Moons have a month for depth and careful money. Three planets meet in your 8th, Mars leaves your 7th on 12 November, and the Sun lights your 11th, one of its best houses, from the 16th.

## Love

Venus, still retrograde, leaves your 10th for your 9th on 6 November, turns direct there on 14 November and returns to your 10th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours shared ideals, travel together and gratitude, at a gentle pace; after that, grace at work and good relations with seniors come more easily.

Jupiter in your 8th all month: deepen trust; avoid jealousy.

Mars joining Jupiter there from 12 November can stir old feelings; talk them through rather than act on them.

## Work and money

Mercury turns direct in your 10th on 13 November, so projects and decisions at work start moving again. From mid-month, sign what you have already reread.

Mars moves into your 8th on 12 November: drive with care, avoid risky lending, and give strong feelings a healthy outlet.

The Sun moves into your 11th on 16 November: gains and helpful seniors — one of the Sun's best houses.

**Money.** Jupiter in your 8th: paperwork, taxes and inheritance need care. Saturn in your 3rd: skills, writing, sales and technical work pay. Rahu in your 2nd: sudden money in and out; avoid speculation.

Saturn in your 3rd: a favourable Saturn: courage and steady self-effort.

Ketu in your 8th favours research and inner work. Earth Moons do best with routine: a daily walk and regular meals will keep the festival weeks from wearing you down.

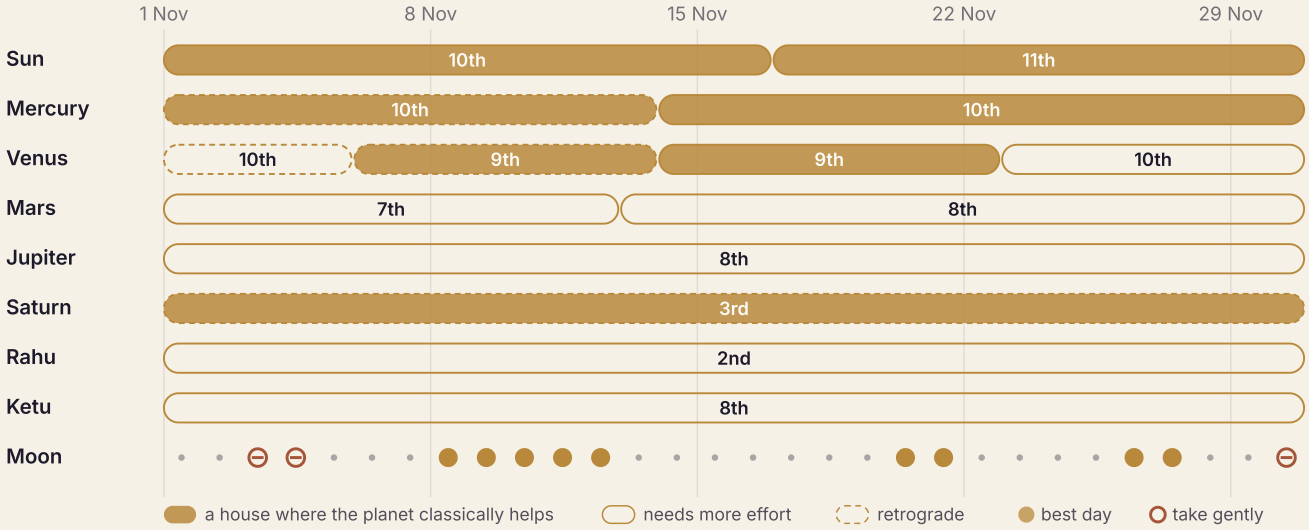

### DIWALI FOR YOU

KUMBHA · MOON SIGN · NOVEMBER 2026

# Aquarius

For Aquarius Moons, partnership is the headline. Jupiter, Mars and Ketu gather in your 7th, while Saturn, your ruler, works through the last phase of Sade Sati in your 2nd — slowly, and without hurry.

## Love

Venus, still retrograde, leaves your 9th for your 8th on 6 November, turns direct there on 14 November and returns to your 9th on 22 November. Virgo is Venus's weakest sign, so until the 22nd the month favours deep feelings, trust and shared money, at a gentle pace; after that, shared ideals, travel together and gratitude come more easily.

Jupiter in your 7th all month: a strong window for marriage or commitment. Few months are better for love questions, so ask the real ones.

With Mars joining Jupiter from 12 November, feelings run warm — say what you want plainly and kindly.

## Work and money

Mercury turns direct in your 9th on 13 November, so travel, visas and dealings with teachers start moving again. From mid-month, sign what you have already reread.

Mars moves into your 7th on 12 November: partners and clients become more direct. Agree on the goal before you argue about the method.

The Sun moves into your 10th on 16 November: recognition at work — one of the Sun's best houses.

**Money.** Jupiter in your 7th: good business partners and contracts. Saturn in your 2nd: budget tightly; clear debts. Rahu in your 1st: bold moves; check facts twice.

## Health and energy

Until 12 November Mars is debilitated in your 6th (work routines, health habits and competition), so energy there may feel scattered or touchy; from the 12th it is stronger in Leo, in your 7th.

Saturn in your 2nd is the last phase of Sade Sati: sleep, simple food and a daily walk are the best remedies, and they are free.

Ketu in your 7th asks you to be fully present with your partner. Air Moons feel scattered when busy: keep screens out of the bedroom and give yourself one unhurried morning a week.

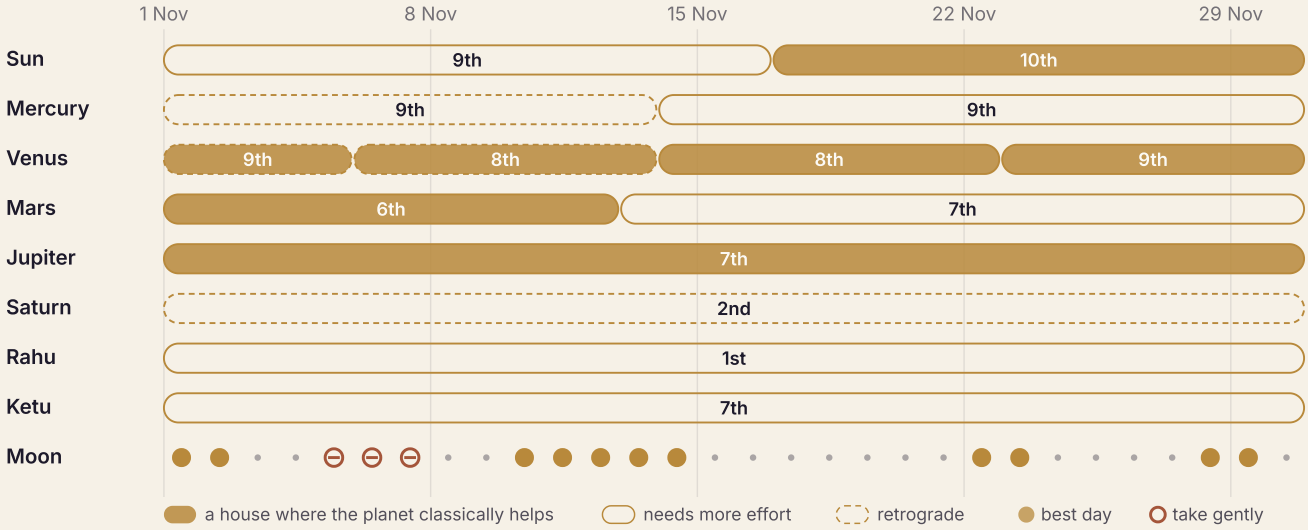

### DIWALI FOR YOU

FEATURE · WORK AND MONEY

# Mars leaves debilitation

Work and courage in late November: on 12 Nov the planet of drive leaves the sign where it is weakest, and the second half of the month asks for brave, well-aimed effort.

## Eight weeks in the crab

Mars entered Cancer on 18 September. Cancer is the sign of its debilitation (neecha): the classical image is a warrior asked to fight in water. Watery, emotional Cancer muffles Mars's directness, and many people felt it as effort without traction — tasks that dragged, tempers that flared at home, plans that would not quite start.

On 12 Nov at 20:19, Mars crosses into Leo. Leo is ruled by the Sun, a friend of Mars, and it is a fire sign like Mars's own Aries. The texts do not count Leo as exaltation — that is Capricorn — but a friendly fire sign is a very different field to fight on.

## A crowded sign

Leo already holds Jupiter (since 31 October) and Ketu. Mars passes Ketu on 15 Nov and Jupiter on 16 Nov. Mars with Jupiter is *Guru–Mangala yoga*, read as courage guided by judgement — good for leadership, teaching, law, sport and any work where conviction must be backed by knowledge. Ketu beside them adds intensity and a need for purpose: effort spent on something that matters, rather than on winning arguments.

## How to use late November at work

- **Restart what stalled.** Projects that lost energy from late September can be picked up again — after Mercury turns direct on 13 November.
- **Ask, propose, apply.** The second half of the month favours visible initiative. Prepare well; Jupiter rewards preparation.
- **Pick one hard thing.** Mars works best on a single, clear target. Write it down on the 12th and finish it by the 30th.
- **Keep the heat out of meetings.** Three planets in a fire sign can make people blunt. Firm on substance, warm in tone.
- **Money: build, don't gamble.** Use the energy to earn and to clear debts, not for speculation — Ketu dislikes shortcuts.

### WHERE IT LANDS FOR YOU

Mars and Jupiter fall in the same house for every Moon sign. They are classically strongest from the Moon in the 3rd (Gemini), 6th (Pisces) and 11th (Libra) for Mars, and in the 2nd, 5th, 7th, 9th and 11th for Jupiter — so Libra Moons, with both in the 11th, have the month's most supportive placement for income.

# Mars from the Moon, from 12 November

| MOON SIGN | HOUSE | AT WORK | WITH MONEY |
|---|---|---|---|
| ♈ Aries | 5th | Creative and competitive work shines | No speculation; invest in skills |
| ♉ Taurus | 4th | Work from home and property matters | Repairs and renovations; avoid big loans |
| ♊ Gemini | 3rd | Initiative, sales, writing and pitching pay | Gains through your own effort |
| ♋ Cancer | 2nd | Firm negotiation; mind your tone | Bold earning; avoid impulse buys |
| ♌ Leo | 1st | Energy for your own projects; lead, but listen | Spend on health and tools, not on show |
| ♍ Virgo | 12th | Behind-the-scenes and foreign work | Watch expenses; rest is productive |
| ♎ Libra | 11th | Networks and targets move | One of the best months for income |
| ♏ Scorpio | 10th | Visible effort and responsibility | Recognition can follow; ask for it |
| ♐ Sagittarius | 9th | Mentors, study and travel for work | Spend on learning and on journeys you planned |
| ♑ Capricorn | 8th | Research and crisis work; avoid shortcuts | Insure, don’t lend; check taxes |
| ♒ Aquarius | 7th | Partnerships move fast; agree terms first | Joint ventures need contracts |
| ♓ Pisces | 6th | Beat deadlines and rivals; fix old problems | Clear debts and recover dues |

Read your Moon sign’s row; if you know your ascendant, read its row too. Your running dasha decides how strongly any transit lands — your free kundli shows it.

PLANET OF THE MONTH

# Mangal

Mars in Jyotish is the commander of the planetary court: courage, energy, land, brothers, surgery, sport and the will to protect.

| | |
|---|---|
| Rules | Aries and Scorpio |
| Exalted | Capricorn (deepest at 28°) |
| Debilitated | Cancer (deepest at 28°) |
| Moolatrikona | Aries, 0°–12° |
| Friends | Sun, Moon, Jupiter |
| Enemy | Mercury |
| Day | Tuesday (Mangalvar) |
| Special aspects | the 4th and 8th houses from itself, as well as the 7th |
| Dasha | 7 years in Vimshottari |
| Nakshatras ruled | Mrigashira, Chitra, Dhanishta |

In the body Mars governs blood, muscle and marrow; in life, the energy to act. Its gifts are courage, decisiveness and protectiveness; its excesses are anger, haste and accidents. A strong Mars makes engineers, surgeons, soldiers, athletes and builders — and good friends in a crisis.

## This month

Debilitated in Cancer until 12 Nov, then in Leo, a friend's sign, beside Jupiter and Ketu. It stays in Leo until it turns retrograde on 10 January 2027 and backs into Cancer — the subject of a later Lens.

## Mars and marriage

Mars in the 1st, 2nd, 4th, 7th, 8th or 12th house is the classical Manglik placement. It is common, it has many cancellations, and it describes temperament rather than fate: a partner with matching energy, or simply mutual patience, is the traditional answer.

## Working with Mars, simply

- Move your body every day — Mars's energy needs an outlet.
- Keep promises to yourself; Mars respects follow-through.
- Do one brave, honest thing a week.
- On Tuesdays, many keep a simple fast or recite the Hanuman Chalisa — a practice, not a bargain.

NAKSHATRA OF THE MONTH

# Krittika

The Pleiades, the star of fire — and the star of this month's full Moon, exact at 20:24 on 24 Nov.

| | |
|---|---|
| Span | 26°40′ Aries – 10° Taurus |
| Ruler | the Sun |
| Deity | Agni, the sacred fire |
| Symbol | a blade, or a flame |
| Nature | mixed (mishra) in muhurta |

◉ NAKSHATRA OF THE MONTH · KRITTIKA

Krittika means “the cutters”. It is the third of the twenty-seven nakshatras and, in the oldest Vedic lists, the first: the year once began with it. Its six visible stars are the six mothers who nursed Kartikeya, the young war-god — which is why he is called Kartikeya, and why the month of his star is Kartika.

Its deity is Agni, the fire present in every hearth and every offering. Krittika is fire that cooks and purifies: sharp discernment, honesty, protectiveness and the courage to cut away what is false. People with the Moon here are often direct, principled and fiercely loyal, warm beneath a sometimes sharp surface.

## The two halves of Krittika

Its first quarter lies in Aries, ruled by Mars: fire on fire, quick and brave. The other three lie in Taurus, ruled by Venus, where the Moon is exalted: steady fire, the hearth rather than the blaze. This month’s full Moon falls in the Taurus half.

## Krittika this month

The Moon is in Krittika on 23 Nov and 24 Nov (see the day-by-day pages for the exact hours). Its full Moon on Kartik Purnima is a classic night for lamps — Agni’s own star, honoured with fire.

IF YOUR MOON IS IN KRITTIKA

- Your Vimshottari dasha began with the Sun’s period.
- You may find the month’s bright Mars and Sun suit you: use the energy for honest, practical work.
- Your nakshatra’s gift is discernment; its lesson is gentleness in how you use it.

> *Fire that cooks is a blessing; fire that spreads is a warning. Krittika is the art of knowing the difference.*

PANCHANG ESSENTIALS

# How to read tithi and nakshatra

The panchang — "five limbs" — describes each day by five measures of the Sun and Moon. Two of them, tithi and nakshatra, do most of the work.

## Tithi: the lunar day

A tithi is each 12° the Moon gains on the Sun. Thirty tithis make a lunar month: fifteen in the bright half (Shukla paksha), from Pratipada to Purnima, and fifteen in the dark half (Krishna paksha), ending at Amavasya. Because the Moon's speed changes, a tithi lasts anywhere from about 20 to 27 hours, and it rarely begins at sunrise.

That is why panchangs name the tithi *running at sunrise* — the udaya tithi — and give the time it ends. Most observances use the sunrise tithi; some use the tithi at another time of day: the evening (pradosh) for Dhanteras and Diwali, the afternoon for Bhai Dooj, moonrise for Karwa Chauth.

## Occasionally a tithi is skipped or doubled

If a tithi begins after one sunrise and ends before the next, no day is named after it (a *kshaya* tithi) — exactly what happens to Prabodhini Ekadashi this month, from 07:16 on 20 Nov to 06:32 on 21 Nov. If it spans two sunrises, two days carry its name: Shukla Navami covers both 18 and 19 November.

## Nakshatra: the Moon's star

The zodiac is divided into 27 nakshatras of 13°20′ each. The Moon passes through one roughly every day, so the nakshatra changes about daily too, at a different time from the tithi. Your birth nakshatra — the one the Moon occupied when you were born — sets your Vimshottari dasha and is the heart of Guna Milan.

## A worked example: Diwali, 8 November

| LIMB | AT SUNRISE, NEW DELHI |
|---|---|
| Vara | Ravivara (Sunday), ruled by the Sun |
| Tithi | Krishna Chaturdashi, till 11:28; then Amavasya |
| Nakshatra | Swati, till 07:24, 9 Nov |
| Yoga | Ayushman |
| Moon | in Libra |

Read it like this: the day dawns in Chaturdashi (so the morning is Narak Chaturdashi), Amavasya arrives before noon and holds the evening (so the evening is Lakshmi Puja), and the Moon is in Swati all day.

## The other three limbs, briefly

### Vara

The weekday, each ruled by a planet: Sunday the Sun, Monday the Moon, Tuesday Mars, Wednesday Mercury, Thursday Jupiter, Friday Venus, Saturday Saturn. In the panchang the day runs from sunrise to sunrise.

### Yoga

One of 27 combinations of the Sun's and Moon's longitudes, from Vishkambha to Vaidhriti. A few — Vyatipata and Vaidhriti above all — are traditionally avoided for beginnings.

### Karana

Half a tithi; there are eleven, which repeat. Vishti, also called Bhadra, is the one avoided for auspicious work.

## The tithis and what they favour

| TITHI | GROUP | CLASSICALLY FAVOURS |
|---|---|---|
| Pratipada, Shashthi, Ekadashi | Nanda (joy) | celebrations, new clothes, festivities |
| Dwitiya, Saptami, Dwadashi | Bhadra (well-being) | steady work, buildings, journeys |
| Tritiya, Ashtami, Trayodashi | Jaya (victory) | competition, effort, overcoming obstacles |
| Chaturthi, Navami, Chaturdashi | Rikta (empty) | clearing, cutting, ending — avoided for beginnings |
| Panchami, Dashami, Purnima | Purna (full) | all auspicious work |

Amavasya stands apart: a day for ancestors, quiet and charity, rather than for beginnings. The groups are a guide, not a rule book; the festivals themselves often fall on rikta tithis — Ganesh Chaturthi and Maha Shivaratri among them.

GUIDE

# Reading your own month with Your day

A Moon-sign page speaks to one person in twelve. Your own chart speaks to you. Here is how to read November from it, in ten minutes.

1. **Make your free kundli** at sunyra.ai/kundli with your birth date, time and place, and choose “Save this chart”.
2. **Open Your day** at sunyra.ai/today. It reads each day from your chart: the Moon’s house from your Moon (chandra bala), the day’s star from your birth star (tara bala), your running dasha and any exact planetary contacts.
3. **Look at the four areas** — love, family, friends and work. Each is marked supported, steady or take gently, with the reason in plain words under “Why”.
4. **Check the week ahead.** The day tabs show the next five days; plan the important conversations for the supported ones.
5. **Note your dasha.** If a new antardasha or pratyantardasha starts this month, Your day tells you; that is often when a month changes character.

WHAT THE WORDS MEAN

- **Chandra bala**: the Moon in the 1st, 3rd, 6th, 7th, 10th or 11th from your Moon sign helps; the 4th, 8th and 12th ask for care.
- **Tara bala**: the day’s nakshatra counted from yours, in nines — Sampat, Kshema, Sadhana, Mitra and Param Mitra are kind; Vipat, Pratyari and Naidhana ask for patience.
- **Dasha**: the season of your life; transits are the weather inside it.

> *Use the good days for beginnings and the gentle days for finishing. Both are useful.*

*Your day is calculated in your browser from your chart; nothing about your birth details is sent anywhere unless you choose to save the chart to your account.*

YOUR NOVEMBER

r

BEFORE YOU GO

# A calm month, well used

If November has one lesson, it is about timing without anxiety. The planets that were reviewing — Mercury and Venus — turn forward in the second week. The planet that was struggling — Mars — finds firmer ground on the 12th. The festivals bring families together, and the wedding season brings new ones into being. None of it asks you to be afraid; all of it rewards a little attention.

Light the lamps. Settle the accounts. Ask the honest question in love, and take the brave step at work after the 12th. And on the days marked “take gently”, do exactly that.
